Xtracurricular Activities - RAGS game

Posted by Cugel - 2011/02/21 16:53

This adult game is an interactive coming-of-age futuristic fantasy.

I've tried to upload the game to the AIF files section here, but I think it is too big, so am including file share links. Hope you enjoy it.

http://rapidshare.com/files/451728081/Xtracurricular_Activities_v1_8.rag
or
http://www.megaupload.com/?d=IBBU4ZPH

V1.8 Fixes/Changes
Only 0 or 1 characters in room during party game
Object taken after party game stays in inventory if player moves back to house exterior before Give action success
Give action on same object handles all conditions

Warnings:
Is not a transformation or mind control game.
Contains attempts at humor.
Is really big, 125+MB.

General Notes:

Game Contents:
Hi Resolution Images: 350+ (Created by the author and the reason it is so darn big)
Erotic scenes: 12
Music and sound effects
Game within a game (Follow the Sexy Secret on bonus day 7)
Text: Boat loads of it

Game Profile:
Days: 6
Possible achievements: 9 (Rewards of extra images)
Possible Early Endings: 6
Possible Bonus: 1 extra day

Known problems without a known solution:

After loading a saved game sometimes layered graphics for the room you are in are incomplete. This does not affect game play.
Music tracks pause momentarily when they loop.

Because RAGS comes out with new versions fairly frequently, can you say which version is the minimum a player might need to play it?

Good point, it requires player V 2.0.0.0 which the most current at the present time.

I thought so. I had v 1.6 on my computer, and it kept telling me the file was corrupt. After blaming Megaupload and Rapidshare, I realized it was probably the wrong version.

For those out there who will need to upgrade, v1.7 and up will require an additional update of Microsoft .NET Framework to v4. This is kind-of included in the RAGS install, meaning that it is downloaded at install time. This in turn means your computer will need to be connected to the Internet. Not a big deal unless (like me) you run from a laptop that isn't connected all the time.

The .NET Framework took almost 5 minutes to install (after downloading). The RAGS 2.0.0.0? Less than 30 seconds. You gotta love Microsoft!

Oh yes, and the game loaded perfectly after that!

Cugel, using Version 1.8 of game In day 7 at the house, after introduction of game, when I transfer biometrics game seams to lock up with "transferring biometrics" I note that the lovely mentor does not leave room.
Any suggestions?
Wayne

First issue is that I can't directly load a saved game. It loads, but everything is blank and trying anything gives error messages. I have to load a new game, then load the saved game. This is my first RAGs games so I'm not sure if that's normal or not.

Secondly, I'm stuck on Day 4. Is there a help source (walkthrough etc.) somewhere?

What version of RAGS are you using? I played XA using version 2.0.0 without any problems, but I see RAGS is now up to version 2.2.0. I have heard tales of there being incompatibilities between versions.

The main discussion forum for the game is http://www.the-new-lagoon.com/viewtopic.php?f=10&t=2053.

I've written a basic walkthrough, but it was made using version 1.4 of the game and is not complete (it does get you to the end of the game though). I don't plan on updating it, but it can be found at http://aifsansmystery.blogspot.com/2011/04/walkthrough-xtracurricular-activities.html

_____

Yes, I'm using the latest version (2.2.0), maybe that's it. This software sure seems to be very picky about versions.

Of course, after I posted this, I found the game thread over at Shark's and was able to get past the part that was giving me trouble.

Thanks for you help.
